

Blending High Performance with Efficiency and Convenience

Hand Crimping Tools and Dies

The ATS Hand Crimping Tool combines the performance and consistency of many premium hand tools with the efficiency and convenience of a general purpose hand tool. Precision construction of high-carbon tool steel with extra strength pivot pins ensures maximum durability.

A Powerful Set of Capabilities

- User-adjustable ratchet control to ensure a complete crimp
- Emergency ratchet release
- Angle head to provide comfortable hand and wrist position
- 3 nested interchangeable dies
- Produces crimps that meet or exceed UL tensile requirements for most manufacturers' terminals

Selections to Meet Your Crimping Needs

Choose from the table below to crimp MOLEX, PANDUIT, T&B, and AMP terminals and splices and products from most other manufacturers.

Capable of Crimping Product Types	Frame with Die Set	Die Set Only	Frame Only
Insulated red, blue, and yellow terminals and splices 22-10 AWG [0.3-5 mm ²]	I-58433-3	I-58423-1	I725412-1
Non-insulated Terminals and Splices 10-22 AWG [0.3-5 mm ²]	I-58546-1	I-58545-1	I725412-1
