*The ATS JAM-Style Applicator is designed specifically to run on JAM-Style Terminators. Our Jam-Style Applicator is a competitively priced applicator that is designed to provide consistent, high-quality terminations, year after year. These JAM-Style Applicators are available for both end- and side-feed applications.*

*All JAM-Style Applicators are completely metric. This provides the convenience of a single set of tooling to adjust and perform maintenance. JAM-Style Terminators are available upon request.*
